

Improve a range of HEDIS, CAHPS, & Pharmacy measures in less than 90 days

emocha offers a **digital medication adherence program** that impacts 60% or more of points tied to **Medicare Star Ratings** – significantly improving a plan’s overall Part C and Part D Star Rating. We also help plans impact **Medicaid Quality Ratings** by improving state-specific measures tied to value-based care bonuses.

	Medicare Measures	Select Medicaid Measures
HEDIS 	<ul style="list-style-type: none"> + Diabetes Care - Blood sugar controlled + Medication Reconciliation Post Discharge (MRP) + SPC: Statin therapy for patients with cardiovascular disease 	<ul style="list-style-type: none"> + Asthma: AMR / MMA + Diabetes: HbA1c control, statin & other medication adherence + Cardiovascular: Statin adherence + Hypertension: Blood pressure control & statin adherence + Use of pharmacotherapy for OUD
CAHPS 	<ul style="list-style-type: none"> + Care coordination + Rating of drug plan + Getting needed prescription drugs + Part D improvement (CAHPS and Pharmacy) 	<ul style="list-style-type: none"> + Getting to care easily + Getting care quickly + Rating of care
Pharmacy 	<ul style="list-style-type: none"> + MTM CMR completion + Diabetes med adherence + Hypertension med adherence + Cholesterol med adherence + Statin use in persons with diabetes (SUPD) 	Adherence to chronic disease and behavioral health medications and protocols based on state-specific guidelines
